

Scientific action plan for 2020 year

Educational institutions "Belarusian State University of Transport"

Date carrying out	Activity	Organizer
February	VI International Scientific and Practical Conference undergraduates ITES 2020 "Innovation in the technical-economic systems"	Department of M&SS
March 12th	Qualifying step VIII International engineering championship "CASE-IN" towards "Power"	Faculty of Mechanics
April	Regional scientific-practical conference "Chernobyl is our pain"	Ecology and energy-efficiency in the technosphere
April–May	65th University Student Scientific and Technical Conference	Department of M&SS
April	XVI International training seminar for teachers of theoretical mechanics	Technical Physics and Theoretical Mechanics
April	XVI International Olympiad of university students in theoretical mechanics	Technical Physics and Theoretical Mechanics
April	I International Scientific and Practical Conference "Transportation in the integration processes in the world economy"	Faculty of Humanities and Economics
May	VII International Scientific and Practical Conference "Construction and restoration of artificial structures"	Military Transport Faculty
October	International Scientific and Practical Conference "Scientific and methodological aspects of mathematical training at universities of a technical profile"	Department of Higher Mathematics
November	X International Scientific and Practical Conference "Tikhomirov readings: innovative technologies of the transportation process"	Operational management and labour protection
November	X International Scientific and Practical Conference "Transport Safety Issues"	SRS, faculties
December	Conference on the results of the XXVII Republican contest of students scientific works in the section "Transport, construction of roads and transport facilities"	Accounting, analysis and audit
December	III International Scientific and Practical Conference of undergraduates and graduate students "Actual problems of the theory and practice of modern science"	Department of M&SS
